Evergreens, Trees, Shrubs, Roses and Plants
Ornamental and Fruit Stock

Oklahoma City, Oklahoma
INSTRUCTIONS

CARE OF STOCK ON ARRIVAL

Place box or package in a building or cellar out of the sun and wind. Take off the cover or loosen up the package and thoroughly soak the packing and roots with water and allow it to stand 8 to 10 hours before unpacking.

If fruit trees or shrubs are unpacked immediately after they are received it is well to heel them in. This is done by placing the bundles of plants in a trench 12 to 16 inches deep, working the fine dirt well in around the roots and then wetting it down. After trees or shrubs have been heeled in they can then be used for planting as needed.

If, owing to delay in transit, the stock has become dry, it is well to bury the entire plant in moist soil and leave it for five or six days. FROZEN STOCK should be thawed out gradually. Pour cold water on roots and place it in a cold cellar and cover it with blankets or burlap until it has thawed.

PLANTING PLANTS TO LIVE

See that the soil is thoroughly prepared before the stock is planted. (1) Soil should be well drained, leaving no soggy places. (2) It should be dug up and pulverized. (3) It should contain a sufficient amount of plant food. This may be assured by the use of well rotted manure or bone meal thoroughly mixed with the soil. DO NOT bring manure or fertilizer in direct contact with the plant roots. DO NOT use acid fertilizers or fresh manure around plants.

Don't let the roots get dry while planting. A few minutes exposure to sun and wind may mean great injury. Keep the roots covered with moist sacks or straw.

Pack the soil firmly about the roots. The hole should be large enough to allow the roots to assume natural positions. Work in fine soil around the roots, packing it firmly. When the hole is partially filled tamp the soil in hard with the feet or with a blunt stick. Tamp the soil again when the hole is nearly full and then cover with fine loose soil. Where water is used fill the hole about half full of dirt, pour the water in and after it has soaked finish filling with soil. DO NOT PUT WATER ON THE SURFACE.

MAKING THEM GROW

Keep a mulch after planting. The most effective is just plain dust. This is applied by frequent shallow cultivation. Mulching prevents rapid evaporation. Lawn clippings, coarse manure, marsh hay, etc., may be used effectively as a mulch around individual trees.

Keep the soil moist until growth starts. Merely wetting the surface is worse than nothing at all. Make holes with a sharp stick or crow bar about the tree or shrub and pour in slowly a quantity sufficient to thoroughly saturate the soil beneath the surface. If the ground has been kept thoroughly mulched this should not be necessary except in unusually long dry spells. Watch the plants, you can tell when they need water.

Fruit trees should be pruned to a desirable shape after they are set out. Cut back the leader where it is desired to have the head start and cut the branches back to within a few inches of the stock. Don't leave branches opposite that will later form

READ THE ABOVE INSTRUCTIONS CAREFULLY
a crotch. Prune small fruits such as gooseberries and currants severely, leaving only three or four main branches from the roots. Cut back raspberries, blackberries and dewberries to within a few inches of the ground immediately after planting. Leave enough of the old canes to mark place where plants are set. Cut grapes back to a single strong, vigorous cane. Shrubs should be pruned to symmetrical shape when planted and the weak branches removed. Hedges, in order to develop them evenly, should be planted deep and then cut back to within six or eight inches of the ground. This will insure a dense, compact hedge with branches near the ground which will develop evenly as it grows.

Evergreens should be watered frequently the first year they are planted. Soak the ground thoroughly once or twice a week. Plant the evergreen with the burlap in place, cutting only the strings around the surface so moisture will get to the roots more readily. Cedars and some types of the cypress shear well but for the general planting a more beautiful result is obtained by letting them develop naturally.

**OUR STOCK AND SERVICE**

Superior quality stock and satisfactory service are the ingredients of our formula for success. We realize that it is satisfied customers, those who come year after year for more stock, that put a business such as ours, on a firm foundation. And we know that in order to have satisfied customers we must render service that satisfies and sell unquestionable stock.

Because we are centrally located we are able to give immediate shipping service to practically all points in Oklahoma and the bordering states. This one feature is worth considering by those who expect to purchase nursery stock. Our shipping department makes every effort to get the stock packed and shipped the same day the order is received.

It would not be practical, rather, practically impossible for a nursery to carry in stock every known variety of trees, evergreens, shrubs, plants, fruits and berries. It is our aim to keep in stock varieties that have proved hardy and adaptable in the territory we cover, to keep close watch and try out new varieties as they make their appearance. We believe it is our duty to protect our customers in being careful not to push an untried article.

It is with pleasure that we bring you this catalog, sincerely hoping that we both may be mutually benefited from the relationship we trust it will establish.

Sincerely yours,

W. E. REY, Proprietor,
OKLAHOMA CITY NURSERY.
THE HOME BEAUTIFUL

Just as a precious stone is enhanced by its setting of gold or platinum, so is the house, be it cottage or palace, made more beautiful by its surroundings of trees, hedges and evergreens and its foundation planting of blossoming shrubs with pretty foliage. Hidden beauty is set forth by the work of the landscape architect. He is the master artist using for his paints living trees and plants, blending them into harmonious groups and clusters of colorful flowers and graceful foliage. But unlike the artist, he must arrange his picture with a thought of the future—his picture grows. It is necessary for him to know the varieties of trees and plants, their growth and habits, conditions under which they thrive, positions in which they should be planted, and color and season of blossoming. The years of practical experience of our landscape gardener make it possible for him to render valuable service to our patrons.

AN EFFECTIVE PLANTING OF VARIOUS SHRUBBERY

Let our landscape department help you solve your planting problems. It is not necessary for you to spend a lot of money in fees and for plans. Put that money into purchasing ornamentals.

Get in touch with us at once—if you are moving into a new home, if you are planning to re-arrange your present planting, or wish to have effective group arrangements of trees and shrubs on your grounds. Call us on the phone or send a post card. REMEMBER as our customer, THIS SERVICE is FREE.

If you wish planting suggestions, sketch your property showing location of buildings, drives and walks; indicate trees that are already planted and their size, and give dimensions of the property and buildings.

Our landscape department service covers the planning and planting of home grounds, public buildings, cemeteries and small parks.

OKLAHOMA CITY, OKLA.
Evergreens have become an important feature in ornamental planting and landscaping in the middle west. Beautiful green, silver and golden foliage strongly contrasting with the intense white of the winter’s snows give a touch of life to the landscape that would otherwise appear bleak if only deciduous trees and shrubs were used. The wide variety of form and color that may be chosen makes it possible to have a very beautiful foundation planting immediately after the work is done. Some types of evergreens are excellent for windbreaks and for screening undesirable views. Note the wide variety that has proven hardy and adaptable to our soil and climatic conditions.

**CYPRESS**

*Arizona Cypress* (Cupressus Arizonica)—Handsome, pyramidal, rapid growing tree. Foliage beautiful glaucous blue. 2-3 ft., $5.00; 3-4 ft., $7.50.

**JUNIPERUS**

Varying in form from prostrate or trailing shrubs to tall growing trees. Upright forms are usually pyramidal or columnar in habit. This type may be used effectively as specimens on the lawn or in groups. The low growing varieties may be used for border planting and on rocky slopes and banks.

*Irish Juniper* (J. Communis Hibernica)—Erect dense column of dark green. Very effective for general landscape and formal planting. 2-3 ft., $5.00.

*Swedish Juniper* (J. Communis Suecica)—Upright form somewhat similar to the Irish Juniper but not quite so tall growing. Foliage glaucous green, lighter than that of the Irish Juniper. 18 inches to 2 ft., $5.50; 2-3 ft., $5.00.

*Savin Juniper* (J. Sabina)—Low, bushy and spreading. Very hardy and suitable for lawn specimen and cemetery planting. May be pruned to any desired shape, foliage dark green. 12 to 18 in. spread, $5.00; 24 in., $7.50.
FITZERIANA JUNIPER—A beautiful evergreen of graceful spreading habit. Light feathery foliage deep green. 2-2 1/2 ft., $7.50.

PROSTRATE JUNIPER (Juniperus Canadensis)—Seldom exceeds two feet in height, excellent for ground cover and foreground planting. Deep green silver foliage. 18-24 in., $5.00.

RED CEDAR (Juniperus Virginiana)—Tall growing native tree of great beauty and very hardy. Ranging from conical to loose and irregular growth. 3-4 ft., $4.00; 4-5 ft., $6.00.

BLUE CEDAR, PLATTE RIVER (J. Virginiana Glauc—a) Closely allied to the red cedar but very distinct on account of its beautiful silvery blue foliage. 3-4 ft., $5.00; 4-5 ft., $7.50.

SPRUCE
(Picea.) This genus includes some of the most ornamental as well as the most useful evergreens. The symmetrical growth of many varieties make them very desirable for ornamental and park planting.

NORWAY SPRUCE (P. Excelsa)—Tall and picturesque with rich shining foliage. Popular for ornamental planting. 2-3 ft., $3.50; 3-4 ft., $5.00.

COLORADO BLUE SPRUCE (P. Glauc—a)—The most beautiful of the spruce family having regularly formed branches making a symmetrical tree. Its pyramidal shape and beautiful silvery blue foliage makes it without question, the finest spruce for lawn specimen and garden planting. 2-3 ft., $10.00.

BLACK HILL SPRUCE (Picea Canadensis)—Symmetrical compact and bushy, the hardiest of all the spruces. Foliage varies from green to bluish tint. 2-3 ft., $5.00; 3-4 ft., $7.50.

PINE
(Pinus.) The majestic evergreen. Native varieties are found in every country of the globe. They even prefer poor soil to that which is extremely rich.

SPRUCE
(Picea) A genus of evergreen giving a wide variety of form and color, and adaptable in many locations. There is an arbor-vitae to supply the need, whatever it may be, in landscaping—tall spires, pyramids, globes with coloring of deep green, light green, blue green, golden green, golden yellow or bronze.

AMERICAN ARBOR-VITAE (Thuya Occidentalis)—A tall growing arbor-vitae with short horizontal branches that turn up near the ends, giving it a compact pyramidal form. Foliage bright green above and yellowish green beneath turning to bronze in winter. 3-4 ft., $4.00; 4-5 ft., $6.00.

DWARF GOLDEN ARBOR-VITAE (Aurea Nana)—Very compact with golden tips. Excellent for specimen lawn plants and for tubbing. 18-24 in., $3.50; 2-2 1/2 ft., $5.00; 2 1/2-3 ft., $6.00.

GOLDEN (Aurea Conspicua)—Very golden, grows taller than the dwarf type. Fine specimen plant. 2 ft., $5.00; 3 ft., $7.50; 4 ft., $10.00.

BAKER’S PYRAMIDAL ARBOR-VITAE (Thuya Occidentalis Pyramidalis)—One of the finest compact pyramidal form arbor-vitae. Deep green foliage, easily transplanted. 2-3 ft., $3.50; 3-4 ft., $5.00; 4-5 ft., $7.50.

FOSEDALE (Biota Orientalis)—Globe shaped evergreen having fine bluish green foliage. Does best when planted in positions protected from intense heat or dry hot winds. 2-2 1/2 ft., $3.00; 2 1/2-3 ft., $5.00.

CHINESE ARBOR-VITAE (Thuya Orientalis)—Symmetrical in form and very pleasing in appearance. Foliage dark green. Drought resistant. 3-4 ft., $7.50; 4-5 ft., $12.50.
EVERGREENS---BROAD LEAF

Broad leaved evergreens are beginning to play an important part in home planting and landscaping in the Southwest. A number of varieties have proved adaptable. The broad leaved evergreen gives us a combination of blossom, berries and glossy green foliage that remains throughout the winter.

ABELIA GRANDIFLORA—Waxy leaves, low and spreading bush which produces throughout the summer thousands of pinkish white blossoms. (Priced with shrubs.)

BOXWOOD (Buxus)—Slow growing evergreen shrub extensively used for decorative purposes; can be sheared to any desired form. Leaves waxy green. Excellent specimen plant. $5.00 each.

EUONYMUS JAPONICUS—One of the best broad leaved evergreens; grows either in the sun or shade. White blossoms followed by red berries. 2-3 ft. $2.00.

LIGUSTRUM AMURENSE (Amoor River Privet)—Used for hedges and specimen plants; shears to any desired form. Evergreen in climates that do not have below zero weather; white blossoms if not sheared. Shrub, $1.00; Specimen Shear $2.50.

MAGNOLIA GRANDIFLORA—An evergreen tree having large, glossy leaves and creamy white flowers. Excellent for lawn specimens. 3-4 ft. $5.00; 4-5 ft. $7.50.

JAPAN PRIVET (Ligustrum Japonicum)—Large leaf privet somewhat similar in form to the California privet. Evergreen in the southern part of the United States. Specimen, $2.50.

DECIDUOUS TREES
FOR ORNAMENTAL AND STREET PLANTING

Deciduous trees certainly play a great part in American life. Can you imagine a town or city without its rows of stately elm, maple and sycamore. There are trees adapted to lawn planting, others for street planting and avenues and still others for parks and large country places.

**SILVER MAPLE** (*Acer Dasyacarpum*)—Rapid growing, wide-spreading with gray bark. Leaves bright green above and silvery white beneath. Autumn colors clear yellow. Valuable tree for street planting. 1-inch caliper 7-8 ft., $1.00.

**NORWAY MAPLE** (*A. Platanoides*)—Forms handsome spreading head, leaves large, somewhat deeper in color than the silver maple. A good tree for street planting; slow growth. 6-8 ft., $3.00.

**PURPLE-LEAVED NORWAY MAPLE** (*Acer Platanoides Schwedleri*)—Strikingly beautiful with its leaves of bright red which later changes to dark green and again in autumn to golden yellow. Because of its unusual coloring this tree makes a fine lawn specimen, or gives a striking contrast with the bright green foliage of the other trees. Slow growth. 6-8 ft., $3.00.

**CUT-LEAVED WEEPING BIRCH** (*Betula Alba Pendula Laciniata*)—A rapid-growing, graceful tree that is hardy anywhere. Bark silver white which forms a charming contrast with the delicately cut, dark green foliage. Excellent lawn specimen tree. 6-7 ft., $3.00.

**UMBRELLA CATALPA** (*Catalpa Bungei*)—Rapid growing ornamental tree grafted on stems four to eight feet high, the top forms an umbrella shaped mass of glossy green, heart shaped leaves without pruning. 4 to 5 ft., $2.00; 5 to 6 ft., $2.50; 7 to 8 ft., $3.00.

**WHITE ASH** (*Fraxinus americana*)—A rapid growing tree, notably immune from attacks of fungus and insects. Foliage glossy green changing to purplish cast in autumn. Prefers fertile, moist soils. 1-inch caliper, 6 to 8 ft., $1.50.

**WEeping WEEPING MULBERRY** (*Morus Alba tatarica pendula*)—Long, slender, gracefully drooping branches. 5-6 ft., 2-yr. head, $3.00.
SYCAMORE (Oriental Plane Tree)—Dull grayish bark handsomely mottled with green; dense, bright green foliage. Very resistant to insects and fungus diseases. A stately tree for street, avenue or park planting. 1-inch caliper, 8 to 10 ft., $1.00.

BOLLEANA POPULAR (Populus alba Bolleana)—Very tall, narrow-topped tree with grayish green bark with foliage that is dark green above and silvery white beneath. Somewhat similar in habit to the Lombardy Poplar. 1-inch caliper, $1.50.

CAROLINA POPULAR (P. deltoides Carolinensis)—A useful tree for screening. Gray-green bark, glossy, heart-shaped foliage apparently always in motion. 1-inch caliper, 75c.

LOMBARDY POPULAR (Populus nigra italica)—A tree that is used very effectively for formal planting. Its spire-like outline shooting up into the sky gives it a striking prominence among other trees. Also a fine tree for avenue planting 1-inch caliper, $1.00.

PURPLE-LEAVED PLUM (Prunus pissardii)—Compact-growing ornamental tree that will go well in any planting. Foliage dark crimson changing to purple as it matures. Specimen, $1.00 each.

DOUBLE FLOWERING PEACH (Prunus Persica plena)—Almost indescribably beautiful during its time of blossoming. Flowers bright red and very double. Ornamental specimen tree. 3-4 ft., $1.00.

JAPANESE WEEPING CHERRY (P. subhirtella pendula)—Small tree with drooping, crooked branches, resplendent in early spring with its profusion of dainty pink flowers. One of the best early flowering trees for specimen planting. 4-5 ft., 2-yr. heads, $3.00.

BECTER’S DOUBLE FLOWERING CRAB (Pyrus ioensis plena)—The finest variety of the flowering crab, forms a low bushy tree which produces delicate double-pink flowers that resemble the M.

PUSSY WILLOW (Salix Caprea)—Medium sized tree bearing silky catkins that come out early in the spring. Prefers damp or loose soil. 5-6 ft., 75c.

MOUNTAIN ASH (Sorbus aucuparia)—Medium sized tree, symmetrically formed head. Dark green foliage and red berries; specimen tree. 5-6 ft., $2.00.

AMERICAN LINDEN OR BASSWOOD (Tilia americana)—A pyramidal shaped tree fine for street or park planting or for specimen. Handsome green leaves; yellowish white blossoms in drooping clusters appear in June. 6-8 ft., $1.50.

AMERICAN ELM (Ulmus americana)—One of choicest trees for street or avenue. Vase-like in natural form, the graceful arching branches in summer are clothed to the very tips in dark green foliage. 1-in. caliper, 6-8 ft., $1.50; 8-10 ft., $1.50.

CAMPERDOWN ELM (Ulmus glabra Camperdownii)—A rapid-growing, very attractive variety of the elm having gracefully drooping branches that form a picturesque summer house. Large, luxuriant foliage, dark green. 5-6 ft., 2-yr. heads, $3.50.

BALE OF GILEAD (P. Balsamifera Candicans)—A very vigorous native tree. Spreading form, heart-shaped leaves, green above and rusty white below. A good street or avenue tree. 5-7 ft., $1.00; 8-10 ft., $1.50.

RED BUD OR JUDAS TREE—A medium sized, irregularly shaped tree with crooked branches. Covered with delicate pink flowers in early spring. 5-6 ft., $1.00.

PAPER-WHITE or NON-BEARING MULBERRY—Has symmetrically rounded head, light yellowish bark and light green foliage. For upland and prairie planting. 7-8 ft., $1.50.

CHINESE UMBRELLA—Rapid growing, attaining a height of 12 to 15 feet, forming large umbrella. Foliage very dense and dark green. 2-yr. heads, 5-6 ft., $2.00.
ORNAMENTAL SHRUBS

Shrubs give us that part of the landscape planting that is most readily seen. Thrusting their branches and flowers up to a level with the eye, they display their splendor more than any other part of the planting scheme. The wide range of varieties to select from makes it possible to have a continuation of beautiful blossoms from early spring till late in the fall.

All shrubs not listed individually below are priced at 60 cents each or $7.00 per dozen, 2 and 3-year-old No. 1 grade.

Bechtel's Double Flowering Crab, 3 to 4 ft..........................$1.00
Almond, Pink Double Flowering, 3 to 4 ft.................................... .75
Smoke Tree or Purple Fringe, 3 to 4 ft................................... .75
Crepe Myrtle, XX large 4-5 ft........................................... 1.00
Hydrangea, Tree Form, 3 to 4 ft........................................... 1.50

DOUBLE FLOWERING ALMOND (Prunus communis flore-pleno)—Small tree or shrub, low growing and bushy, blooms early with a profusion of double white or rose-colored flowers.

BARBERRY THUNBERGII (Thunberg's Japanese Barberry)—Hardy, dense, low-growing shrub with spreading thorny branches; oval leaves that change to brilliant orange and yellow in autumn. Red berries that remain on the bush throughout the winter. 2 to 3 feet high; fine for border and low ornamental hedges.

ALTHEA (Rose of Sharon)—May be used as either a shrub or tree. Flowers in August to September; red, white or purple flowers. 8 to 10 feet.

BIRD OF PARADISE (Poinciana Gillies)—A beautiful shrub having fine graceful foliage. Orange and yellow blooms through August and September resembling somewhat the Bird of Paradise. 5 to 6 feet.

BUTTERFLY BUSH (Buddleia) also known as Summer Lilac—Lilac colored blooms on spikes in clusters through August and on to cold weather. Suitable for south or west side of building. 3 to 4 feet. A very attractive and popular shrub of quick and rapid growth. Blooms sometimes make their appearance in the latter part of July.
SMOKE TREE (Purple Fringe)—A unique shrub or small tree 8 to 10 feet high, overhang in midsummer with a cloud-like mass of fine mist-like flowers which resemble smoke at a little distance.

CARAGANA ARBORESCENS (Pea Shrub)—
Light green foliage, flowers pale yellow, in May; 5-6 feet.

CALYCANTHUS (Sweet Shrub)—The old-fashioned shrub whose chocolate colored blossoms give off a spicy fragrance. Blooms in June. 3 to 4 feet. Prefers north exposures, shady and moist soils.

CORNUS (Dogwood)—C. Siberica. 4 to 5 feet. A fine shrub for winter effect, having red branches; white flowers in early spring, good plant for moist soils.

—C. Lutes—Yellow twig. Similar to the above except that it has yellow instead of red twigs.

—C. Elegantissima—Variegated white and green foliage, low spreading habit, blooms in April and May; twigs of brilliant red.

CREPE MYRTLE—A shrub for the South. Literally covered with delicate crepe-like blossoms from August to cold weather. Waxy green foliage. Does best on south or west exposure. 4 to 5 feet. Red, pink, white and purple.

CURRANT—Blooms early in the spring handsome yellow flower, followed by black fruit; edible. 4 to 5 feet.

DESMODIUM—Graceful slender-branched shrub, very handsome light green leaves; purple flowers in late summer and fall; freezes back in winter.

CYDONIA JAPONICA (Japan Quince)—One of the earliest shrubs to bloom, the flowers appear before the foliage is fully developed. Blossoms red, white, pink.

DEUTZIA GRACILIS (Dwarf Deutzia)—Low-growing, slender shrub with gracefully arching branches, having bright green leaves and graceful racemes of pure white flowers in May. 1 to 3 feet.

DEUTZIA LEMONEI (Lemoine’s Deutzia)—Spreading shrub

CORNUS (DOGWOOD)

3 to 4 feet, having large white flowers in May. Fine for border planting.

DEUTZIA CRENATA PLENA (Double Pink Deutzia)—One of the tall growing varieties resplendent in late spring with its profusion of pinkish white flowers.

DEUTZIA PRIDE OF ROCHESTER—Very similar to the Deutzia Crenata, tall-growing with white flowers tinged with pink in the bud.

ELEAGNUS ANGUSTIFOLIA (Russian Olive)—A very large-growing shrub, having beautiful silvery branches, sometimes spiked. Leaves light green above, silvery white beneath; fragrant yellow flowers, silvery on the outside; brown berries coated with silvery scales.

EXOCHORDO GRANDIFLORA (Pear Bush)—Slender spreading shrub, very hardy, grows 3 to 4 feet tall; slender branches bend under the weight of the profusion of pure white flowers in April and May.

FORSYTHIA SUSPENSA (Golden Bell)—Graceful shrub with drooping branches that reach the ground. In the early spring before the foliage appears the branches are literally covered with golden yellow flowers. 4-4 feet.

FORSYTHIA SUSPENSA FORTUNEI (Fortune’s Golden Bell)—Similar to the above variety except that the branches make upright growth.

GOLDEN ELDER (Canadensis Aurea)—A vigorous growing shrub having very golden foliage which gives a striking contrast with the green foliage of other shrubs. 3-4 feet.

PERN LEAVED ELDER—Green foliage, fern-like leaves, vigorous growth, 8 to 10 feet; white flowers in May.

PURPLE FRINGE (See Smoke Tree.)

HYDRANGEA ARBORESCENS GRANDIFLORA (Hills of Snow)—A very showy variety of the hydrangeas, covered throughout the early summer with its immense snow-white clusters of flowers.
HYDRANGEA P. G.

**HYDRANGEA A. G.**
Flowers very much like the Snowball. Must be planted in positions protected from heat of the sun or the hot winds of summer. 2½ to 3 feet.

**HYDRANGEA PANICULATA GRANDIFLORA**
Blooms from July to November with showy white flowers in panicles. Will stand more sun and wind than the "Hills of Snow." Plant for borders or single specimens in lawn preferable in protected positions.

**KERRIA JAPONICA**
(Globe Flower)—An attractive, spreading shrub having short branches and bright green leaves which turn to yellow in autumn; bright yellow flowers in the early spring.

**HYDRANGEA P. G. (Tree Form)**
The hydrangea trained to tree form, for specimen plants.

**HYPERICUM AUREM**
(St. John's Wort)—A vigorous-growing, herbaceous shrub attaining a height of 3-4 feet; flowers bright yellow throughout the summer.

**LONICERA FRAGRANTISSIMA**
(Early Fragrant Honeysuckle)—Large semi-evergreen shrub with long, slender branches, curving; ovate leaves; creamy-white or yellow flowers, very fragrant; appear in early spring.

**LONICERA MORROWII**
(Japanese Bush Honeysuckle)—A very hardy variety of the honeysuckle having crimson berries after the flowers in early spring. 4 to 6 feet.

**LONICERA TARTARICA**
(Tartarian Honeysuckle)—Bush honeysuckle grows 4 to 6 feet high, fragrant white or pink flowers in April and May followed by red fruit berries that remain throughout the summer. A very desirable shrub for screen plantings.

**PHILADELPHUS CORONARIUS**
(CommonMock Orange)—Upright-growing shrub, hardy and vigorous, 5 to 6 feet; arching branches, large, handsome foliage; pure white or cream white flowers in dense racemes.

**PHILADELPHUS GRANDIFLORUS**
(The Large Flowered Mock Orange)—Very showy in early spring with its clusters of large showy white flowers; upright growth, 2 to 6 feet.

**PHILADELPHUS GORDONIANUS**
—Large upright shrub with spreading branches; blooms in early summer; flowers pure white and fragrant. 4-5 feet high.

**SPIREA**
A group of low and medium height shrubs that distribute their blooms over practically the entire season. Varieties of pink, white and red flowers, handsome foliage.

—S. Billardi—One of the tall-growing varieties with brown branches, saw-edged leaves, pink flowers in narrow panicles in May and June.

—S. Anthony Waterer—A dwarf variety that seldom grows above two feet high, produces clusters of crimson flowers all summer and late into fall. Excellent for border and foundation planting.

—S. Bumalda—Dwarf Japanese variety with rose-colored blooms summer and autumn.

—S. Froebeli—Similar to Anthony Waterer but slightly taller; crimson flowers during July and August.

—S. Opalifolia Aurea—Gold-yellow tinted leaves and double white flowers in June. A valuable variety for foundation planting.

—S. Prunifolia—Double white flowers that resemble English daisies; blooms in April, foliage changes to bronze in autumn; upright and tall growing.

—S. Thunbergii—Sometimes called the fern-leaved spirea on account of the fine fern-like foliage; flowers early before foliage appears; dwarf, excellent for planting in front of other shrubs.

—S. Van Houttei—Often known as Bridal Wreath. One of the most popular and useful ornamental shrubs; drooping graceful branches literally covered with white flowers.
SYMPHORICARPOS (Snowberry)—S. Racemosus. Bushy shrub, 8 to 4 feet high, with slender branches; pinkish flowers in summer followed by waxy-white berries.

—S. Vulgaris (Indian Currant)—Made conspicuous by its wealth of plump red fruit clustered along its arching branches in the late fall and winter; dwarf, good for border planting.

COMMON LILAC—(S. Vulgaris.) Common purple lilac, hardy and vigorous grower; blooms profusely in May.

—Persian Lilac—A very graceful variety of the lilac having slender branches and narrow leaves; grows 4 to 6 feet high; very fragrant flowers on large, loose panicles.

TAMARIX ODESSANA—Fine evergreen-like foliage, excellent for screening and planting back of other shrubbery; blossoms delicate pink.

TAMARIX HISPIDA—Russian variety with soft silver-green foliage; delicate pink flowers throughout the summer and fall. Very hardy, will stand drought and thrive under any condition.

VIBURNUM OPULOSS STERILE (Common Snowball)—Large globular clusters of snow-white flowers in April and May and make it a very desirable shrub; grows 2-3 feet.

LANTANA MISTA (Hardy Lantana)—An herbaceous shrub, rather dwarf and spreading, 2 to 3 feet high. Outer flowers opening yellowish and turning to saffron and brick red, inner flowers yellow changing to orange; blooms throughout the summer and fall.

WEIGELA (Diervilla)—Very hardy, vigorous shrubs of spreading habit that thrive most satisfactorily in moist soil. They are extremely showy, long slender branches covered during the blooming season with dainty flowers. The color varies greatly in the different species; thrives in partial shade.

WEIGELA AUREA VAR. EGATA (Variegated Weigelia)—Dwarf form having very attractive foliage and flowers; leaves yellow and white, flowers rose-colored.

WEIGELA CAND. DA.—Tall vigorous grower, 5 to 6 feet. A very handsome shrub, yielding a profusion of pure white flowers in May.

WEIGELA EVA RATHKE—Free flowering, producing an abundance of crimson colored flowers throughout the season; 3-4 feet high.

WEIGELA ROSEA—Hardy and free flowering, producing in April a profusion of rose-colored flowers on its gracefully arched and drooping branches; one of the finest of the weigelas: the best weigela.

SPECIAL SHRUBS

JASMINE NUDIFLORUM (Star Jasmine)—A distinct Southern shrub, low-growing, graceful branches arching and drooping; covered with golden yellow flowers early in the spring before the foliage appears; fine for massing along borders.

SALVIA GREGGI—Low-growing shrub, 1 to 3 feet high, having gray foliage; flowers on 2 to 3 inch racemes, red or white; flowers continually.

SPIREA LATIFOLIA (Bethlehemensis)—Branching shrub 3 to 5 feet high with bright red or brown twigs and white flowers in early summer. An American variety and very hardy.

VITEX (Chaste Tree)—A very handsome shrub that grows 6 to 8 feet high, open habit, grayish green foliage; blue flowers on spikes 6 to 12 inches long; adaptable to dry and sunny locations.

FLOWERING WILLOW (Salix)—Graceful shrub or small tree, handsome, slender leaves; blooms all summer, flowers rosy-pink and lilac colored; also pure white; prefers moist loam.

ROSA RUGOSA (Rugosa Alba)—White, flowers early and makes an excellent shrub.

HEDGE

CALIFORNIA PRIVET (Ligustrum Ovalifolium)—One of the most beautiful plants for hedges known; a species with dark shining leaves and shears nicely to any desired shape. Fine for hedges between city lots, parks, on large estates or grown in clumps; holds its foliage until late winter. 12 to 18 in., 5c each, $4.00 per 100; 18 to 24 in., 6c each, $6.00 per 100; 2 to 3 ft., 10c each, $8.00 per 100; 3 to 4 ft., 15c each, $10.00 per 100.

AMOOR RIVER PRIVET (Ligustrum Amurense)—This is the hardy Russian Privet that resembles the California some except the leaves are not so shiny. Succeeds in any soil, shears well; is of slower growth than the California and is practically evergreen. 18 to 24 inches 15c each, $10.00 per 100; 2 to 3 feet 20c each, $15.00 per 100.
PRIVET HEDGE

IBOTA PRIVET—Tall growing and spreading; the hardiest of all the privets; branches are horizontal to the main stem then droop toward the ground; grayish green with black berries that hold through the winter. Specimen plants, 35c each; $4.00 per dozen.

JAPAN PRIVET (Ligustrum Japonicum)—A broad leaved privet used much as specimen plants for shearing; semi-evergreen. Sheared specimens, 2½ ft., ball $2.50.

BOX—Dwarf hedge for planting where the taller growing varieties are not desirable; foliage dark glossy green and evergreen throughout the winter. 8–10 in., 15c each; $1.50 per dozen.

ORNAMENTAL VINES

Hardy vines play an important part in the home planting if there are arbors, verandas, or porches to shade. They contribute privacy and add a dignified home-like atmosphere to a place not afforded by anything else.

All vines listed are 60 cents each, with the exception of the following varieties:

Clematis Andre, 2-year ____________________________ $0.75
Clematis Jackmanni, 2-year ____________________________ .75
Clematis Henryi, 2-year ____________________________ .75

AMPELOPSIS VEITCHI (Boston Ivy)—Small ivy-like leaves that over-lap each other forming a dense green screen. Excellent for using on stone or brick buildings; foliage changes to red and orange in autumn.

AMERICAN IVY (Virginia Creeper)—A very rapid growing vine, having heavy, deeply lobed leaves; excellent for producing quick shade, covering rocks, tree trunks, etc.

EIGNONIA RADICANS (Trumpet Vine)—Splendid vigorous, hardy climber; large trumpet-shaped scarlet flowers appear in Aug.

*Clematis Jackmanni—A profuse bloomer, having flowers from 4 to 6 inches in diameter, of clusters, early in the summer.

*Clematis Andre—Red flowering.

*Clematis Henryi—Somewhat similar to the Jackmanni, only having white flowers.

CLEMATIS PANICULATA—Rapid-growing, free blooming hardy vine that is almost covered by small, white, fragrant flowers.

HALL'S JAPAN HONEYSUCKLE (L. Halliana)—Popular variety, a hardy, rapid grower; flowers white; very pretty and fragrant.

CORAL RED HONEYSUCKLE—Similar in habit to the Hall's Japan variety, having coral red flowers, trumpet shaped.

HECKROTTI HONEYSUCKLE—Excellent vine; flowers cream inside and reddish purple outside, fragrant and good bloomer.

WISTERIA (Wisteria sinensis)—Most vigorous of all climbers, grows 10 to 20 ft. in a season; long clusters of pale blue flowers.

WISTERIA ALBA—Similar to the above in habit, having white flowers in pendulous clusters. May and June.

ENGLISH IVY (Hedera Helix)—Hardy evergreen climbing vine with dark green leaves which it retains throughout the most severe winter; excellent for cemetery planting, rockeries and stone walls.

WISTERIA
Beautiful Roses
FOR THE ROSE GARDEN

The American home is hardly complete without its rose garden; the rose is truly the Queen of Flowers. No other flowering plant or shrub can compare with the rose in its delicate shades of color. Start a rose garden of your own, the pleasant recreation of caring for your plants and watching them grow and develop into wonderfully beautiful flowers will many times repay you for the cost. Select half a dozen—a dozen or as many as will be needed to plant a garden. Our list well covers the roses that have been found hardy and adaptable to the Southwest.

Roses listed in our catalog are good strong No. 1 stock, 2 and 3-year-old, field grown. 60c each, $7.00 per dozen.

Varieties marked with asterisk (*) $1.00 each, $10.00 per dozen.

HYBRID PERPETUAL ROSES (H. P.)
The hardy, vigorous and free blooming roses that will generally succeed where the Teas and Polyanthas would fail. Hybrid Perpetuals are generally grown on their own roots and while they are not everblooming, some varieties will bloom in the fall as well as in the spring. They offer a wide range of color and the blossoms are borne in profusion and are very fragrant.

TEA AND HYBRID TEA ROSES
(T) and (H. T.)

Tea roses are distinguished by their delicious fragrance and richness of coloring. They supply the shades of color that are wanting in the Hybrid Teas. Tea Roses are not hardy enough for successful garden culture where climatic conditions are extreme. The Hybrid Tea, a cross between the Tea and Hybrid Perpetual, is fast becoming the most popular class. It partakes of the fineness of color and shades of the Tea and the hardiness of the Perpetual.

POLYANTHA
Delightful for massing in beds, or as edges for borders or beds of taller growing roses or shrubs. Their small, neat flowers are produced in large clusters, entirely covering the plant, through the summer and fall. They are as hardy as the Hybrid Perpetuals.

WHITE ROSES

ANGELUS (H. T.) — A large white rose with creamy center, long-keeping as a cut flower; plant is upright, vigorous, blooming abundantly.

BESSIE BROWN (H.T.)—A white rose flushed with pink held erect on long stems, flowers fall and deep, large petals.

KAISERINE AUGUSTA VICTORIA (H.T.) — Large cream white flowers, very double with reflexed outer petals. The choice of white roses.

KILLARNEY (H.T.) — Long pointed buds borne on long stems, opens to loose colorful pinkish white rose.

KILLARNEY, DOUBLE WHITE (H.T.)—Similar to the above except the flower is very double in form.

For Cultural Directions and Other Valuable Information Pertaining to Nursery Stock
See Inside Front Cover.
MADAM BUTTERFLY

WHITE ROSES (Continued)

MISS WILKOT (H.T.)—One of the most charming roses, having a practically uniform soft light-cream with the faintest blush toward the edges. A model of perfection in shape and form, produced with marvelous freedom.

WHITE AMERICAN BEAUTY or FRAU KARL DRUSCHKI (H.P.)—Pure white, large flowers in spring and fall; fragrant.

WHITE MAMAN COCHET (H.T.)—Pure white center with pink outer petals, good form.

WILLIAM R. SMITH (T.)—Creamy white with shadings of pink, very beautiful in form and color; vigorous plant with glossy foliage.

PINK BUSH ROSES

AMERICA (H.T.)—A very continuous bloomer, having large flowers that rival the American Beauty in size; long pointed buds opening to a bloom of the most glorious glowing rose pink; as the flower opens the outer petals fold back, leaving the high pointed center fully exposed.

*ANNIE LAURIE (H.T.)—Large, long-pointed buds opening to large, double flowers of flesh pink shading to rose at edge of petals; golden yellow base; abundant foliage, large and glossy.

COLUMBIA (H.T.)—Bright, glowing pink, medium large; petals reflexed. Strong, sturdy bush that is practically thornless.

COUNTESS CLANWILLIAM (H.T.)—Long pointed buds opening to large, full, high-centered flowers of great beauty. Delicate peach-pink at base of petals which are heavily edged with cherry-red.

JONKHEER J. L. MOCK (H.T.)—Very large, full and fragrant; inside of petals pink, coppery pink outside. A vigorous grower.

KILLARNEY (H.T.)—Large long-pointed buds, opening to loose flesh-colored rose borne on long strong stems.

LA DETROIT (H.T.)—An excellent rose of shell pink color that fades to soft rose. You will want some of these roses in your collection, no matter how small it may be.

PINK BUSH ROSES (Continued)

LOS ANGELES (H.T.)—Luminous flame-pink, toned coral, shaded translucent gold at base of petals. Sturdy upright grower, bearing perfect flowers.

LADY URSULA (H.T.)—One of the most dependable varieties. Large blooms of delicate flesh pink with petals gracefully reflexed. Bush is vigorous and upright in growth with flowers borne on long stems.

LA FRANCE (H.T.)—A bright silvery pink with pale lilac shading; flowers large and delightfully fragrant.

LYON ROSE (Pern.)—Shrimp pink or coral; center salmon shaded to chrome yellow. Its color is gorgeous, form unsurpassed and fragrance delightful.

LADY ASHTON (H.T.)—Deep carmine-pink, shading to yellow at base of petals. Large, full, high-centered flowers; a continuous bloomer.

MADAM SEGOND WEBER (H.T.)—Salmon-pink rose, beautiful form of large size and good texture.

MADAM BUTTERFLY (T.)—Known as the “Glorified Ophelia.” A sport of the Ophelia, in which all of the colorful tones of the Ophelia are intensified. The buds are a lovely shade of Indian red with yellow base which opens into a harmony of bright pink suffused with apricot and gold.

MADAM CAROLINE TESTOUT (H.T.)—Very large flowers of a brilliant, satiny-rose color that deepens at the center and is bordered with silvery rose.

MAGNA CHARTA (H.P.)—A bush of great hardness; flowers bright, rosy pink, large and full.

MAMAN COCHET (T.)—A very dependable rose with large, full, coral-pink bloom flushed with light carmine mingled with yellow; very fragrant, beautiful long pointed buds.

MARJOE BUCKELLY (H.T.)—Strong, free branching growth; buds long, opening into buff heavily flushed with rose and finishing into silvery pink. A Gold Medal Rose.
FRANCIS SCOTT KEY

PINK BUSH ROSES (Continued)

MRS. CHARLES BELL (H.T.)—A shell-pink sport of the Radiance. Similar in growth and habit to the Radiance except it has beautiful shell-pink coloring.

MRS. GEORGE SHAWYER (H.T.)—A very beautiful rose having large, globular flowers of rosly-pink color, outside of petals pale pink. Vigorous plant, free bloomer producing blooms on long stems.

MRS. CHARLES RUSSELL (H.T.)—Strong, vigorous bush producing large blooms of rose-pink deepening toward the center.

MRS. JOHN LAING (H.P.)—Flowers beautifully formed, finely colored a soft shell pink borne on long stiff stems.

MY MARYLAND (H.T.)—One of the best American roses, with bright salmon-pink color, edge of petals shading to paler pink. Strong, vigorous grower.

OPHELIA (H.T.)—One of the most desirable roses for all 'round culture. Flowers beautifully formed, salmon-dash and very fragrant; borne on strong stems. Sturdy, disease-resistant bush.

PAUL NEYRON (H.P.)—The largest of roses, a clear, bright, shining pink double rose with fine fragrance.

PILGRIM (H.T.)—A beautiful shade of rose-pink, having a pronounced tea fragrance. Perfectly formed bud opens to fine full flower.

RADIANCE (H.T.)—Brilliant, rosy-carmine; tips of petals lighter, petals cupped.

*WILLOWMERE (H.T.)—The long-pointed coral-red buds develop into very large, open, double flowers of a rich shrimp-pink, shaded yellow in the center. A vigorous, bushy, upright grower.

RED BUSH ROSES

*ADMIRAL WARD (H.T.)—Large globular flowers, crimson red, shaded fiery red and velvety-crimson. Large bronzed foliage.

AMERICAN BEAUTY (H.P.)—A fine old rose that may be classed as either a light red or a deep pink. A profuse bloomer with large flowers, full and delightfully fragrant.

CHAS. K. DOUGLAS (H.T.)—Vigorous upright bush, free bloomer, producing a profusion of scarlet, velvety crimson, sweetly scented flowers.

CRUSADER (H.T.)—A rich velvety-crimson rose with heavy petals; flowers very double and excellent form.

*CRIMSON QUEEN (H.T.)—Rich, bright, velvety-crimson flowers large and full. Strong upright grower with beautiful foliage.

*DEAN HOLE (H.T.)—Silvery carmine with salmon shading, large full and very fine form.

DUCHESS OF ALBANY (H.T.)—Flowers large and globular, or red La France.

EDWARD MAWLLEY (H.T.)—A truly perpetual flowering Hybrid Tea. One of the finest of all dark crimson roses.

ETOILE D'FRANCE (H.T.)—Rich velvety-crimson center, ruby red, large and double. A rose that will stand hot weather.

*FRANCIS SCOTT KEY (H.T.)—An outstanding American variety. Large crimson-red, very double flowers borne on long stems; excellent lasting qualities.

GENERAL JACQUEMINOT (H.P.)—Crimson-scarlet, large, full and fragrant.

GENERAL McARTHUR (H.T.)—Bright scarlet, large, full and very free. Strong, erect plant.

GEORGE DICKSON (H.T.)—Velvety black-crimson flower, very shapely; petals smooth and of excellent texture, symmetrically arranged. A Gold Medal Rose.

GRUSS AN TEPLITZ (H.T.)—Brightest scarlet-crimson. A free grower and profuse bloomer. Fine for garden where a mass of color is desired; stems rather short.

*HADLEY (H.T.)—Deep, rich velvety crimson, retaining its brilliancy throughout the year. Well formed buds and large double flowers on rapid growing, long and stiff stems, fragrance unexcelled.

HELEN GOULD (H.T.)—Bright watermelon-red, very free, vigorous, strong. One of our best.

AMERICAN BEAUTY
RED BUSH ROSES (Continued)

HIS MAJESTY (H.P.)—Dark crimson, shaded to vermillion.

HOOSIER BEAUTY (H.T.)—Glowing crimson-scarlet with darker shadings; good long buds of fine shape opening to a bloom of dazzling brilliance, very fragrant. Strong, clean grower, free from mildew and rose spot.

HUGH DICKSON (H.P.)—Intense crimson, shaded scarlet. Large, full and magnificent in form, very pleasing fragrance.

J. B. CLARK (H.T.)—Intense scarlet, shaded crimson-maroon; very dark and rich, and sweetly fragrant; petals large, deep and smooth. Handsome bush with fine dark green foliage.

LADY BATTERSEA (H.T.)—Lovely wine-red with long pointed buds and large, full and double flowers.

LAURENCE CARLE (H.T.)—Deep rosy-carmine, large, full, very free and constant bloomer.

MADAM MASSON (H.P.)—Massive double flowers of an intense red; a constant and profuse bloomer.

METEOR (H.T.)—A grand rose for the garden. Dark velvety crimson, shaded maroon.

MILADY (H.T.)—Crimson scarlet. Color similar to the Richmond. Flowers large, full and well formed, carried on good stiff stems.

PRINCE CAMILLE DE ROHAN (H.P.)—Favorite because of its finely formed blood-red blooms that have a strong, pleasing fragrance. It is sometimes known as the "Black Rose."

RED RADIANCE (H.T.)—A glowing crimson sport of the Radiance; fine large, long pointed buds.

ULRICH BRUNNER (H.P.)—Large, fragrant and finely formed blooms, light red borne freely on vigorous plants.

YELLOW BUSH ROSES

MRS. AARON WARD (H.T.)—Deep golden-orange shading to creamy yellow.

ALEXANDER HILL GRAY (T.)—The long pointed buds of this rose develop into large, perfectly formed flowers of lemon-yellow, shading darker at maturity. Beautiful, leathery foliage; plant disease resistant.

CONSTANCE (H.T.)—The long, beautiful orange buds produce full, globular flowers of golden yellow, with petals streaked crimson, making them unusually attractive.

DUDLEY CROSS (T.)—Soft rose-yellow, shading to deeper colors; thornless bush.

DUCHESS OF WELLINGTON (H.T.)—One of the dependable yellow Hybrid Teas. Long buds, large flowers of intense saffron-yellow, changing to deep coppery yellow as they expand; delightfully fragrant. Robust and disease resistant.

ETOILE DE LYON (T.)—Deep golden-yellow; a healthy, vigorous grower, blooming freely; flowers full deep and rich in fragrance.

GOLDEN OPHelia (H.T.)—A seedling of the Ophelia. A beautiful bright golden yellow, slightly lighter at the center and borne on long stiff stems. Blooms very compact and opening in perfect symmetrical form.

HARRISON'S YELLOW—One of the old yellow roses, excellent for planting as a shrub; medium size flowers of deep yellow.

HUGONIS (Rosa Hugonis) (Special)—A natural species; single, yellow and very fragrant.

LADY HILLINGDON (T.)—Deep apricot yellow. The color is solid without any shading. After the flower is cut the color deepens. It never fades. The flowers are large and loose with remarkable large petals; buds long and pointed. The finest yellow rose to date.

LILLIAN MOORE (H.T.)—The $1,000 new rose. A deep pure Indian-yellow shading deeper at the center; delightfully fragrant.

LUXEMBOURG (H.T.)—A deep copper-yellow, shaded with coral; petals thick and leathery.
YELLOW BUSH ROSES (Continued)

MME. FRANCIS KRUGER (H.T.)—A vigorous grower and constant bloomer for out of doors. Large blooms of deep copper yellow tinged with pink.

MARIE VAN HOUTTÉ (T.)—Medium-sized, full; lemon-yellow blooms, center shading deeper. Petals edged with bright rose.

MADAM EDOUARD HERRIOTT (H.T.)—A coral red shaded yellow at base, passing to shrimp red, or bronze. The coloring of this rose is wonderfully beautiful. The bud is long, slender and pointed.

MRS. ARTHUR ROBERT WADDELL (H.T.)—Long and pointed buds of rosy scarlet, opening to coppery-salmon; large, semi-double, extremely showy. Rampant grower of exceptionally handsome foliage.

MRS. A. R. WADDELL

THE POLYANTHA ROSES

BABY DOLL or TIP TOP (P.)—Brilliant golden-yellow, tipped with clear, bright cerise; lovely miniature "Sweetheart" buds and blooms of perfect form. Borne singly, in erect panicles; foliage very handsome.

BABY DOROTHY, PINK BABY RAMBLER (P.)—A prolific producer of pure pink flowers. This rose has all the good qualities of the Crimson Rambler.

BABY RAMBLER (P.)—The dwarf form of the Crimson Rambler. Flowers a clear brilliant, ruby-red color borne in profuse clusters until frost. The plant attains a height of 29 inches.
BABY LA MARNE (P.)—Semi-double flowers, bright salmon-rose at the edges, rosy-blush inside. It blooms profusely in clusters of fifteen to forty flowers.

BABY CATHERINE ZEIMET (P.)—Large clusters of small, double, pure white flowers. Excellent for bedding and for borders.

CECILE BRUNNER (P.)—Fragrant, very double, bright rose flowers with yellowish centers, borne in open sprays.

EDITH CAVELL—A dwarf Baby Rambler of bright crimson with white eye.

CLIMBING ROSES

Hybrid Tea (C.H.T.), Polyantha or Rambler (C.P.), Tea (C.T.), Hybrid Polyantha (C.H.P.), Wichuraina or Memorial (W).

AARON WARD (C.H.T.)—Flowers of splendid form, full, double and equally attractive when full bloom as in the bud state; in color a distinct Indian yellow shading to lighter toward the edges. A real good climber.

AMERICAN BEAUTY (H.P.)—One of the most beautiful of roses, in size, form and color; rich red, passing to crimson, delicately veined and shaded.

AMERICAN PILLAR (C.P.)—A grand rose and one of the best pillar varieties. Immense clusters of single bright crimson flowers, with clear white eye, on long stems. A vigorous climber, very handsome, glossy green foliage.

CLIMBING MADAM CAROLINE TESTOUT (C.H.T.)—Clear rich pink; a strong, vigorous grower, one of the best everblooming climbers.

DR. VAN FLEET (W.)—Flowers when open run four inches and more in diameter; high center with beautifully undulated and cupped petals. In coloring, a delicate shade of flesh pink shading to rose-flesh in center.

ETOILE DE FRANCE (C.H.T.)—Brilliant red with crimson velvet, centering to vivid cerise.

GARDENIA or HARDY MARSHAL NEIL (C.H.T.)—Very beautiful double flowers of bright yellow shading to cream, borne in large drooping clusters. A wonderful rose.

MARSHAL NEIL (C.T.)—Deep golden yellow. One of the best yellow climbers. Must be planted in protected positions to keep from freezing out.

METEOR (C.H.T.)—A grand velvety-red rose; a free and persistent bloomer and a vigorous grower, making a growth of 10 to 15 feet the first season.

Mlle. CECILE BRUNNER (C.H.P.)—Rosy-pink flowers on a rich creamy-white ground, blooms freely.

MRS. ROBERT FERRY or CLIMBING K. A VICTORIA (C.H.T.)—Ivory-white, identical with the parent Kaiserin Augusta Victoria except in its strong climbing habit.

*PAUL'S SCARLET CLIMBER (H.W.)—Vivid scarlet flowers shaded with large clusters of medium-sized, semi-double blossoms. An exceptionally good rose for pergolas, pillars, etc.

SILVER MOON (H.W.)—Clear waxy white with a mass of bright yellow stamens which adds to the attractiveness of the flowers which are large and fragrant. The finest white climbing rose.

SOURCE D'OR (C.W.)—Golden yellow, producing large panicles of beautiful flowers early in the spring. This attractive rose is considered by many as one of the best golden yellows grown and is very popular with the general public.
CLIMBING ROSES

(Continued)

SUNBURST (C.H.T.) — A climbing sport of that peer of yellow roses, Sunburst. A true pillar rose of strong growth, flowering freely, bearing large sulphur-yellow flowers, beautiful in bud or when open.

TAUSENDSCHOEN OR THOUSAND BEAUTIES (C.P.) — Varying shades from a delicately flushed white to a deep pink and rosy-carmine in bright clusters that almost cover the lovely foliage. Blooming profusely from the beginning of June until the last of July, the flowers appear in clusters (10 to 15 in a cluster) of splendid size and quite double.

WOOTEN (C.H.T.) — A fine dark crimson-red, globular shaped flowers, cupped petals.

THOUSAND BEAUTIES

PRICES ON ROSES

Hardy Perennials

For the back yard and for the flower borders and beds, the hardy perennials come into their own. They furnish the bright spots, the spots of sheer, colorful beauty in the home planting. They come back each year, resplendent in their many hues and colors of summer which give an added charm to the home.

We are listing only those perennials which we have found adaptable.

**ACHILLEA** (The Pearl)—Suitable for dry, sunny places, good border plant. Pure white, double flowers all summer. 20c each, $2.00 per dozen.

**AQUILEGIA** (Columbine)—Comes in blue, white, yellow and shades of pink. One of the daintiest of outdoor flowers for cutting; they prefer well drained, shady positions; excellent for the rockery and for beds and borders. 20c each, $2.00 per dozen.

**HARDY ASTERS** (Michaelmas Daisies)—A single flower somewhat resembling the daisy; prefers open, sunny and well drained positions. 20c each, $2.00 per dozen.

**BLEEDING HEART** (Dicentra)—One of the most delightful of the early spring plants; red, heart-shaped flowers in drooping racemes. 15c each.

**CARNATIONS** (Hardy)—An excellent plant for bedding and borders around shrubs; flowers small and very fragrant; red, white, pink and cream. 20c each, $2.00 per dozen.

**COREOPSIS** — Yellow flower, blooms in June; excellent for color masses. Flowers resemble daisies in form; fine for cutting. 15c each, $1.50 per dozen.

**CHRYSANTHEMUM MAXIMUM**—See Shasta Daisy.

**CHRYSANTHEMUM** (Hardy)—Should be planted in well drained, sunny positions and through the most severe freezing weather it is well to protect them with dry leaves or coarse straw. Ask for them by color: pink, red, white and yellow. Pompon varieties, assorted to color: pink, red, yellow, white and bronze. 15c each, $1.50 per dozen.

**DELPHINIUM** (Hardy Larkspur)—An excellent blue flower for cutting; makes a good bedding plant and for use along borders. Var. Belladonna light sky blue. Bella-moss, dark blue. 20c each, $2.00 per dozen.

**DIANTHUS** (Pinks)—Perfectly hardy, flowering continuously from early spring until late autumn; flowers borne on long stems suitable for cutting and deliciously clove scented. Mixed colors. 15c each, $1.50 per dozen.

**DIANTHUS BARBATUS** (Sweet William)—The Sweet William is a fine plant which produces great masses of bloom of extremely rich and varied colors. 15c each, $1.50 per dozen.

**GAillardia** (Blanket Flower)—An excellent flower or garden bedding, highly colored red and yellow shades; blooms from June to frost. 15c each, $1.50 per dozen.

**GYPSOPHILA** (Baby’s Breath)—Desirable where a mass of delicate misty bloom will fill in a bare space. 25c each, $2.50 per dozen.

—Paniculata Compacta—Single minute white flowers having a gauze-like appearance.
—Flore pleno.—Double blossoms. 50c each, $5.00 per dozen.

Every flower garden, regardless of its size, can be added to from year to year with pleasing effect, or rearranged for the addition of various color to the color scheme. Send us your order now so as to be assured of getting the plants you desire when wanted.
ORNAMENTAL GRASSES

Hardy Ornamental Grasses may be used with telling effects in borders, large beds or by the margin of pools and lakes. 25c each, $2.50 dozen.

-EULALIA JAPONICA — Long, narrow, graceful green foliage and when in flower the plumes are six to seven feet high.

-EULALIA JAPONICA VARIEGATA — Long narrow leaf, striped green and white, and often pink or yellow.

-HIBISCUS (Mallow Marvels)—A robust, shrub like perennial blooming from early July to late September; flowers of enormous size are from six to ten inches across; crimson, pink and white. 25c each, $2.50 per dozen.

-PLATYCODONS (Japanese Balloon Flower)—Excellent for shady locations and suitable for hardy border or for rockery. Tall varieties should be staked. Flowers are pure white and clear blue; blooms from June to October. 20c each, $2.00 per dozen.

GERMAN IRIS

One of the most hardy, showy and easily grown of all garden flowers, practically immune from the attack of disease or insects; the flowers are the largest of all double flowering perennials and each succeeding year adds to the vigor of the plant and to the perfection and abundance of the blooms. Assorted to color, 50c each, $5.00 per dozen; named varieties, 75c each, $8.00 per dozen.

-PLATYCODONS —Paper-white, crimson markings in the center; very large and full; rose type; early bloom.

Nothing can be more enjoyable than the beautiful color of flowers in early spring. Assure yourself of this pleasure by ordering your plants now.
HARDY PHLOX

The most colorful of the hardy perennials, very hardy, blooms from early summer until late autumn. 20c each, $2.00 per dozen.

—BRIDESMAID — White with crimson center.

—ELIZABETH CAMPBELL — Soft pink, large flower. 35c each, 3 for $1.

—ETNA — Crimson with cherry-red eye.

—MISS LINGARD — Earliest white, pale pink eye, long graceful panicles.

—M. P. LANGIER — Fine dark red.

—MRS. JENKINS — Large pure white flowers, early.

—MRS. CHARLES DOOR — A beautiful glow of lavender.

RUBEECKIA (Golden Glow) — One of the most popular hardy plants. Grows six foot tall, producing masses of large, double, golden yellow flowers shaped like the cactus dahlia. 20c each, $2.00 per dozen.

SANTOLINA (Lavender Cotton) — A sweet-smelling dwarf evergreen perennial, with delicate silver-white foliage useful as border plants around shrubs and evergreens and perennial beds. Can be sheared to form desired. 10c each, $1.00 per dozen.

SHASTA DAISY — The Shasta Daisy has a small yellow center with long white petals, the slender stems springing from the base of the plant, and is most attractive either in the perennial border or as a cut flower. 15c each, $1.50 per dozen.

STATICE LATIFOLIA (Sea Lavender) — Grows 15 to 18 inches high with tufts or clumps of thick, leathery foliage above which is extended immense panicles of delicate blue flowers 15 to 18 inches across. Excellent for use in sprays and for cut flowers. 25c each, $2.50 per dozen.

SWEET PEAS (Hardy) (Lathyrus Latifolius) — A very showy variety of the Sweet Pea, excellent climber for fences and trellises; blooms throughout the summer, in delicate shades of red, pink, lavender and white. 25c each, $2.50 per dozen.

TRITOMA FITZERI (Red-Hot Poker) — In bloom from August to frost, with spikes three to four feet high, and heads of bloom of a rich orange-scarlet, producing a grand effect either planted singly or in masses. 25c each, $2.50 per dozen.

HARDY VIOLETS (Sweet Scented) — Deep purple flowers, bloom in the early spring and late fall. 10c each, 75c per dozen.

YUCCA—ADAM'S NEEDLE

—FILAMENTOSA — One of the most strikingly effective plants for isolated positions on lawn or banks, it is also indispensable for the rockery. Its broad, sword-like, evergreen foliage and immense branching spikes of drooping creamy white flowers rising to a height of five to six feet. 50c each, $3.00 per doz.

—GLORIOSA — Red flowers. $1.00 each, $10.00 per dozen.

ORDER EARLY

We aim to execute all orders as soon as received, but during the rush season delays are unavoidable, which, however, can be largely overcome by our patrons anticipating their wants and ordering a and taking delivery of their requirements early.

Include some roses in your order. We are listing a large number of varieties that will answer all requirements of our customers. See pages 14 to 20.
Selected Bulbs

A home ground, garden or park is not complete without its beds and borders of spring flowering bulbs. Nothing is more attractive or charmingly beautiful than the masses of delicate color afforded by beds of Hyacinths or Tulips. Crocus, peeping through the turf in late winter, herald the approach of spring.

Year after year these hardy little plants burst forth in all their beauty before Dame Nature has aroused other flowers from their winter’s sleep. Then quietly they fade away to make place for other beauties.

With the exception of Gladioli, Cannas and Tuberoses, the bulbs we are listing should be planted in the fall. Place your order as early as possible.

CANNAS

Cannas are among the most popular and magnificent summer blooming plants and seem to do equally well in all sections of the country. They need a generous amount of fertilizer and in dry weather should be watered freely. Bulbs should be planted from the middle of April to the first of May, 2 feet apart. Assorted to color, 5c each, 50c per dozen.

Named varieties, 10c each, $1.00 per dozen.

PRESIDENT—Clear, glistening scarlet without spots or blotches; large blossoming, green leaf variety growing four feet tall.

KING HUMBERT—The best red flowering, bronze leaf variety of the cannas. It grows to a height of five feet with beautiful red flowers often measuring five to six inches across.

YELLOW KING HUMBERT

—The same habit of growth as the King Humbert but foliage is green and the flower is rich yellow spotted with bright red.

CITY OF PORTLAND—Deep salmon-pink, very neat habit particularly as a bedder when used with other plants; height three feet, green foliage.

HUNGARIA—Trusses of enormous size, borne well above its bronze foliage; flowers very large, with broad petals; color lovely delicate shade of pink; wonderfully free in bloom; height three feet.

SELECT GLADIOLI

(Sword Lily)

The Gladiolus is a flower of easy culture and does well in any soil but should be planted in full exposure of the sun. They do well planted in hardy borders or in front of shrubbery. Bulbs should be planted four to five inches apart and four to six inches deep, according to the size of the bulb. Press the earth firmly about each bulb.

Named varieties, 10c each; 75c per dozen.

AMERICA—Soft pale pink tinted lavender.

HALLEY—Clear orange-pink, white throat, very early.
SELECT GLADIOLI  (Continued)

MRS. FRANCIS KING—Large flowers, tall spikes, brilliant scarlet-red.

MRS. FRANK PENDLETON—Well expanded flowers, light pink, heavily spotched with blood-red in the throat.

SCHWABEN—Clear citron yellow with aster-purple tongue on the lower petals, buds sulphur-yellow.

JAPANESE LILIES

(Plant in Fall or early Spring)

AURATUM—Gold banded Japan Lily. Flowers large and graceful, are a delicate ivory-white, thickly studded with chocolate-crimson spots, and striped through the center, golden yellow; three to five feet. July to September. 35c each, $1.00 for three.

CANDIDUM (Madonna Lily)—This is an old garden favorite which produces a large mass of snow-white flowers on straight stems. These bulbs should be planted in October or November. 35c each, $1.00 for three.

TIGRINUM FLORE PLENO (The Double Tiger Lily)—Blossoms large and very double; bright orange with black spots. 35c each, $1.00 for three.

TIGRINUM SIMPLEX (The Single Tiger Lily)—Very hardy, stately growing lily, similar in color to the Flore Pleno. 25c each, $2.50 per dozen.

HYACINTHS

(For Fall Planting)

Extra Select, $2.50 per dozen, $15.00 per 100.

Good No. 1, $2.00 per dozen, $12.00 per 100.

Bedding Bulbs, $1.50 per dozen, $10.00 per 100.

Hyacinths will grow in any good soil but they prefer a rich light soil. Bulbs should be covered from three to five inches. They are fine for shrubbery borders and for beds of massed colors. Assorted to color: white, pink, red and dark blue.

MRS. FRANCIS KING—Large flowers, tall spikes, brilliant scarlet-red.

MRS. FRANK PENDLETON—Well expanded flowers, light pink, heavily spotched with blood-red in the throat.

SCHWABEN—Clear citron yellow with aster-purple tongue on the lower petals, buds sulphur-yellow.

POETICUS NARCISSUS

be covered from three to five inches. They are fine for shrubbery borders and for beds of massed colors. Assorted to color: white, pink, red and dark blue.

NARCISSUS

(Plant Narcissus Bulbs in the Fall.)

(Daffodils and Jonquils)

Single, 75c per dozen, $5.50 per 100.

POETICUS—Flowers are small with snowy white petals; cups very short, wide mouthed and rimmed with orange or scarlet.

EMPRESS (White with Yellow Trumpet)—A variety that rivals the Emperor in vigorous growth; is highly recommended.

VON SION (Double)—Golden yellow flowers with strong stems and dark green foliage; cup large and double.

PAPER WHITE GRANDIFLORA (Multiflora)—Large clusters of very fragrant small white blossoms bearing eight to ten flowers on each stem. Excellent for indoor forcing for winter flowers.

GRAND SOLIEL D’OR (Multiflora)—Deep yellow flowers with orange-red cup, in clusters. Habit similar to Paper White. 15c each, $1.50 per dozen.
CROCUS
Among the first flowers to appear after the snow leaves the ground. They are exceptionally attractive when scattered in a lawn or planted in rows bordering a bed. When scattered in the lawn the grass can be moved without harm to the crocuses. Plant two inches beneath the surface. The crocus may be grown in pots or bulb pans indoors. Assorted to color: white, yellow, purple and striped. 35c per dozen, $2.50 per 100.

FREESIA
PURITY—One of the most fragrant flowers. Blossoms borne in clusters along the stem that grows eight to twelve inches high. Excellent for cut flowers. 35c per dozen, $2.50 per 100.

TULIPS
BREEDER TULIPS—Now that a taste for art colors has been awakened, together with a desire for brown, bronze and buff tones, attention is drawn to these old fashioned tulips. Their peculiar and artistic coloring, and lasting qualities make them unusually well suited for garden decoration and cut flower use. Colors: Dull wine-red, golden brown, dark rosy-violet, reddish brown, carmine red and orange red. 75c per dozen, $5.50 per 100.

COTTAGE TULIPS—An early flowering variety. The Tulips belonging to this class owe their name to the fact that many of them have been found growing around the country cottages in England and France many years ago. Colors: red, yellow, yellow with orange red border, white with delicate pink border, double crimson, double white and double pink. 75c per dozen, $5.00 per 100.

DARWIN TULIPS—The Darwin Tulips are exceptionally large, long stemmed, late flowering variety that produce a most gorgeous show in the garden, either in beds, borders or among shrubbery.

BARONNE DE LA TONNAY—Clear carmine rose running to soft pink at the edges. 75c per dozen, $5.50 per 100.

CLAIRE BUTT—Extra fine salmon pink. Inside much deeper with blue base; large, handsome flower; one of the best for indoor culture; height 21 inches. 75c per dozen, $5.50 per 100.

DREAM—Beautiful shade of lilac, inside deep violet, blue base; brightest and strongest of this type and of gigantic size. $1.00 per dozen, $7.50 per 100.

PARNcombe SANDERS—Scarlet with rose bloom, inside vivid cerise with white base, very large; one of the finest for outdoor or indoor culture; very strong and attractive variety. 75c per dozen, $5.50 per 100.

PRIDE OF HAARLEM—A brilliant rose-carmine, very popular. 75c per dozen, $5.50 per 100.

PAINTED LADY—Cream white. 75c per dozen, $5.50 per 100.

TUBEROSES
Clear, waxy white flowers borne in clusters on long stems; flowers very fragrant and excellent for use as cut flowers. The bulbs should be planted in the spring, April and May. 60c per dozen, $4.00 per 100.
FRUIT DEPARTMENT

Every home should have a supply of fresh fruit in season. This can easily be provided by a selection of the following varieties. The back yard affords space enough for a supply of fresh fruit throughout the season. Don't fail to have fruit for the kitchen and for the children.

Each Per 10 Per 100
3-year No. 1 XX, 6-7 ft $1.00 $9.50
2-year No. 1, 5-6 ft .60 5.50 50.00
1-year No. 1, 4-5 ft .40 3.50 30.00

SUMMER APPLES

EARLY HARVEST—Yellow, medium to large; very hardy and one of the first to ripen.
RED ASTRACHAN—Large, deep crimson, very early and hardy; excellent for cooking.
YELLOW TRANSPARENT—Greenish yellow; one of the first apples on the market. Tree is a vigorous grower and good bearer; fruit keeps well and is a good shipper.
RED JUNE—Deep red, medium size; very juicy, excellent for eating.

WINTER APPLES

ARKANSAS BLACK—Large, deeply colored, reddish-black; fine keeper and shipper; fairly good for eating; excellent for cooking.
BEN DAVIS—Deep red, vigorous, very hardy.
DELICIOUS APPLES

GRIMES GOLDEN APPLE

DELICIOUS—Large, dark brilliant red; flesh crisp, fine-grained and juicy; slightly acid flavor but very pleasing; seems to thrive in all sections. One of the best winter apples grown.

GRIMES GOLDEN—Rich golden-yellow with small dots; flesh yellow, juicy, tender and crisp with a fine aroma.

JONATHAN—Medium size, pale yellow covered with a lively red; flesh is white, juicy and spicy; tree vigorous.

MAIDEN BLUSH—Rather large and fine, evenly shaped; red cheek on pale yellow ground; flesh white and tender; pleasant acid flavor.

ROMAN BEAUTY—Large yellow, streaked with red; very productive; one of the best market varieties; an early and heavy bearer.

WINESAP—A medium dark red apple; one of the most popular apples in America; bears early, heavily and regularly; excellent for cooking and eating.

STAYMAN'S WINESAP—Similar to the Winesap but larger, juicier and more prolific; one of the best for appearance and flavor; favorite for cider.
APLLES (Continued)

WHITE WINTER PEARMAIN—Large, roundish, pale yellow, extra high flavor; it ships well and is a fine looker.

GANO (Black Ben Davis)—An improved Ben Davis, nearly covered with red; flourishes in any state in the Union; good shipper and keeper for market.

CRAB APPLES

HYSLOP—Large deep crimson; bears in clusters that are very attractive. Tree very vigorous where hardy, bears abundantly in clusters, which makes them exceedingly ornamental. October.

YELLOW SIBERIAN—Small, round and yellow; popular for jellies; tree vigorous and hardy.

TRANSCENDENT—Medium large, golden yellow with a blush; flesh juicy and acid; immensely productive.

WHITNEY—A good sized crab with smooth, glossy skin striped with red; flesh firm, juicy and very pleasant flavor.

ALEXANDER—Medium to small size; yellowish red, sweet and juicy, tree hardy and productive.

EARLY GOLDEN—Fruit small, pale yellow, juicy and sweet; first to ripen; tree hardy and productive.

MOORPARK—Very large, orange-yellow fruit with a red cheek; juicy, sweet, rich and free-stone; tree very productive.

SWEET VARIETIES

BING—Very large and blackish purple; one of the most delicious late sweet cherries.

BLACK TARTARIAN—Very large purplish black; tree is a vigorous upright grower and is a prolific bearer.

GOVERNOR WOOD—Large, round, yellow mottled with red, juicy and delicious and very sweet.

ROYAL ANN—Magnificent, large, pale yellow fruit with bright red cheek; flesh firm and juicy.

SOUR VARIETIES

ENGLISH MORELLO—Very dark cherry; tree dwarf, and especially adaptable for garden planting.
SOUR CHERRIES (Continued)

EARLY RICHMOND—Medium size, dark red; sprightly acid flavor. This is one of the most valuable and popular of the acid cherries; unsurpassed for cooking purposes. The tree is very productive; fruit ripens early in June.

MONTMORENCY—Large, red; early fruiting; acid flavor, very juicy. A very fine cherry for kitchen and market use.

ALEXANDER—A very early peach, medium size, greenish-white cling.

CARMAN—Very large, creamy-white early peach; flesh tender and juicy, freestone; very prolific bearer.

BELLE OF GEORGIA—A white peach with red cheek; excellent for kitchen and market; tree rapid grower and prolific; freestone.

ELBERTA PEACH

EARLY RICHMOND CHERRIES

EARLY CRAWFORD—Large, yellow with a red cheek; fruit juicy and sweet; tree very productive; fruit ripens the latter part of July.

MAMIE ROSS—Large, pale yellow with pink blush; rather acid, fine for market. June 10.

LATE CRAWFORD—Yellow and juicy freestone stained red at the pit; ripens the last of September.

CHAMPION—Large, round, creamy-yellow with a red blush; freestone with red stains around the pit; delicious, sweet and juicy. Ripens the first of September.

CROSBY—A fine yellow market freestone, ripening the last of August.

CHINESE CLING—A creamy-white with red flesh around the pit; very juicy, excellent for pickling; ripens in August.

ELBERTA—An extra large; bright yellow freestone; flesh yellow, juicy and sweet; fruit very showy; the best market variety for the Southwest.

GREENSBORO—Medium yellow with beautiful blush; flesh white, juicy and good. Freestone when fully ripe; ripens in July. A very popular peach of the white variety.
PEACHES (Continued)

J. H. HALLE—One of the best peaches introduced in recent years; a beautiful, huge, golden freestone; flesh is solid, delicious and sweet; round as a ball; a great shipper, a splendid keeper, always brings top prices and big profits; tree is vigorous, sturdy and good grower. The skin is deep crimson, smooth, tight and without fuzz. The pit separates easily from the flesh. It is exceptionally valuable as a commercial peach owing to its unusual keeping and shipping qualities.

INDIAN CLING—Flesh deep red and very juicy; ripens the first of October.

LEMON CLING—Large, oblong, skin yellow with a red cheek; similar in shape to a lemon; very productive, ripens in September.

MAYFLOWER—Medium size, red all over; flesh firm and of good flavor; extremely valuable as an early market fruit; upright tree, good producer. The earliest known peach; freestone.

STUMP OF THE WORLD—Freestone; very large, round, white peach with red cheek. Flesh white and juicy; the largest and best white peach grown; ripens in August.

If you have a small farm or a little garden space that will grow a fruit tree, by all means plant some this fall or next spring. They come into bearing in 2 to 3 years, bear heavy crops and are always a source of pleasure and profit. With a very small amount of care you can have delicious fruit every year for the table or canning purposes.

Place your order now and we will ship you the trees when the proper time for planting arrives.

ABUNDANCE—One of the oldest and best known Japanese varieties; rapid grower, hardy and productive; fruit large, lemon-yellow and good quality.

BURBANK—Vigorous grower; very large and profitable for market; cherry red with yellow meat.

DAMSON—Small oval shaped fruit with purple skin; flesh very juicy, rather tart, fine for preserving.

GOLD—Large yellow plum; very sweet; upright grower and a good producer.

WILD GOOSE—Deep red, flesh very sweet and juicy; tree abundant bearer.

COMPASS CHERRY—Small bright red, oblong plum; tree very productive and an early bearer. Tree resembles cherry in growth.

HANSEN HYBRID PLUMS

All varieties of the Hansen plums bloom two weeks later than the other varieties of plums. This insures a crop when the others are killed by late spring frost.

HANSEKA—Beautiful bright red; flesh firm, yellow and of good quality; bush rapid upright grower; fruit has very small pit.

OPATA—Tree has a sprawling habit; fruit dark red; flesh green, very productive.

SAPA—Tree has sprawling habit; fruit a dark glossy purple; purple-red flesh; sweet and desirable for eating or for making jams.

WANETA—Largest of the Hansen Plums; good red color; flesh has a delicious apricot flavor.

Nectarines thrive well where peaches grow and have the same habit of growth. The fruit has a smooth, thin skin like a plum, is freestone and has a pit resembling a peach; fruit is nearly round, with tender, white flesh, deliciously sweet.

QUINCE

2-year No. 1, 5-6 ft., $1.00 each, $9.50 per 10.

The Quince is always in demand, although its commercial value has changed but little for many years. Quinces are largely used in cooking, canning and preserving, as they have a delicious flavor. It is a reliable cropper and require but little care.

ORANGE QUINCE—Large, bright yellow, firm flesh and good flavor; one of the best for cooking; the most popular and extensively cultivated quince; ripens in October.

FIGS

Fig trees succeed best in well-drained soil and in sheltered locations. Fresh figs are a favorite everywhere for dessert and preserving.

This luscious and mildly laxative fruit is about the easiest to grow; after the first year or two it needs no further attention.

CELESTIAL—This is the popular little blue sugar fig, used much for preserving.

MAGNOLIA—Is a good and regular bearer. This is the type that is grown extensively along the western coast for commercial purposes.
GRAPEs

Grapes are one of the most productive and hardy fruits that we have. They can be grown in small spaces and trained up the sides of buildings or along fences, occupying very little room. Make the soil mellow and plant vines somewhat deeper than they stood in the nursery and about 8 feet apart by a fence or building. As a commercial crop they are as desirable as corn and as staple on the market. When a vineyard is once established it will be very productive for a lifetime with ordinary care.

**RED GRAPES**

AGAWAM—Fruit large, thick-skinned, sweet and sprightly.

BRIGHTON—Medium in size; flesh rich, sweet and one of the best quality. Ripens earlier than Delaware. Vinous, vigorous and very hardy. Early.

CATAWBA—Medium size; a great wine grape and fine for desserts; ripens late; dull coppery-red color.

DELAWARE—A very sweet, handsome grape with small, compact bunches; high in quality and very reliable.

**BLACK GRAPES**

CONCORD—The leading market grape; excellent for home garden; grows in full clusters, large grapes having thin skin; flesh tender, sweet and juicy; ripens in July.

CAMPBELL’S EARLY—Bunch and grapes large; hardy, vigorous and very productive.

MOORE’S EARLY—An extra large grape; excellent for home use; ripens three weeks earlier than Concord.

WORDEN—Large, round; black; flesh has a flavor unlike any other grape; delicious and melting; a dessert and market sort considered superior to Concord in every way. Vine hardy and productive. Early midseason.

CARMEN—Grapes in large clusters and of excellent quality; a very good variety of the black grapes. Ripens in July.

**WHITE GRAPES**

DIAMOND—A pleasing early white grape that ripens before Moore’s Early (early June). Bunch and berry large; quality extra fine; strong healthy grower; very hardy.

NIAGARA—Large, slightly oval; pale yellow with a white bloom; the quality is equal to that of the Concord and is the standard white grape of the country. The bunches are large and compact. Vine vigorous, hardy, and very productive.

**JAPANESE PERSIMMONS**

This fruit is becoming very popular for home use and market. It is thoroughly adapted to the cotton belt; a vigorous grower; ornamental tree; early and prolific bearer. This fruit sells for an average rate of $5.00 per bushel.

DAMIO—Large tomato-shaped; skin bright orange-yellow; generally seedless, best quality; this is the variety that demands the highest price on the market.

TANE NASHI—Quite large, conical, pointed; early bearer and very productive.

**NOTICE**

See the inside of front cover for instructions as to the proper manner to prepare the soil and directions for planting nursery stock of all kinds. A little care at first will give the plant a chance to get a vigorous, healthy start.
NUT TREES

ALMONDS — A tree that is quite extensively grown for its fruit in the Southwest. 4-5 ft., 75c each; $7.00 per 10.

ENGLISH WALNUTS — Another nut tree that is grown conservatively in the middle and South west. 3-4 ft., $1.50 each; $12.50 per 10.

PAPER SHELL PECANS
2-3 ft., $1.00 each; $9.50 per 10; $90.00 per 100.
3-4 ft., $1.50 each; $14.00 per 10; $125.00 per 100.
4-5 ft., $2.00 each; $17.50 per 10; $175.00 per 100.

Throughout the South west no fruit or nut is better adapted for general planting than the Pecan. It is native to this territory, the trees thrive in our soils and bear enormous crops that demand excellent prices on the market. Pecan trees thrive well in almost any good soil, but do best in heavy loam.

STUART — A very large nut two inches in length and a full inch in diameter in favorable seasons; shell soft and thin; kernel full and plump. This is one of the most satisfactory varieties of the paper shell pecan, it blooms late, and fruits early, thus escaping frost at both end of the season.

SUCCESS — One of the large, strictly first class pecans maturing from the 10th to the last days of November and having a fine record for early, regular and prolific bearing.

PABST — A very large nut bearing strong resemblance to the Stuart. It is not quite as early in production.

SCHLEY — One of the most deliciously flavored pecans, having a very thin shell and the best cracking quality. A long, well filled nut.

PLOTSCHER, DELMAS, VAN DEMAN and MONEYMAKER are other varieties of nuts that have proven successful growers in the South.

A small berry patch will supply many dishes of delicious berries for breakfast. Send your order today. Order blank on page 35.
DEWBERRIES

75c per dozen, $3.00 per 100, $20.00 per 1,000.

AUSTIN—Earlier and larger than blackberries; very sweet and the vine has a trailing habit yet do not require a trellis.

LUCKETIA—Large, jet-black, highly flavored and hardy; berries ripen early and are sweet and luscious, having no core.

THORNLESS—A new member of the dewberry family recently put on the market. The hardy, spreading plant produces fine large berries of excellent flavor and owing to the absence of thorns on the plant these berries are easily gathered. $1.00 per dozen, $6.00 per 100; $50.00 per 1,000.

EARLY VARIETIES

SENATOR DUNLAP—An old favorite; produces large crop of large, handsome, dark red berries.

ST. LOUIS—Ripens a few days earlier than the Senator Dunlap; larger and brighter red but not firm enough to be a good shipper.

KLONDIEK—This variety is more extensively planted than any other throughout the South; very hardy and will withstand dry hot weather.

LATE VARIETIES

AROMA—Fruit is very large, bright red in color, very productive and firm, which makes it a good shipping berry.

GANDY—The latest ripening berry; very large and handsome, though it does not bear profusely it has its place as a commercial berry; plant on heavy clay soil.

EVERBEARING

PROGRESSIVE—A hardy, vigorous and productive berry. A genuine fall-bearing variety; fruit is dark red, medium size and the flavor is unsurpassed. To obtain the best results keep the blooms picked until the first of August, then the ripening crop will more than repay you for your efforts.

FAY'S PROLIFIC CURRANTS

RED CHERRY—Very large red, rather acid; bush is short, erect, stout and productive. All red currants thrive best in partial shade.

GOOSEBERRIES

35c each, 3 for $1.00.

DOWNING—Large, pale green fruit, extra good quality and very productive.

HOUGHTON—Medium size, pale red; the hardiest variety.

INDUSTRY—Dark red; thrives best in partial shade.

CURRANTS

35c each, 3 for $1.00.

BLACK CHAMPION—Very hardy and productive; easily grown.

FAY'S PROLIFIC—The leading market variety; extra large stems of red berries of uniform size and easily picked.

PALMETTO—Plants vigorous in growth producing mammoth thick green shoots, with a distinctly pointed tip.

CONOVERS—A standard variety of large size; very tender.
Ornamental Trellis

For the small bungalow and modest home, ornamental trellises can be used very effectively. Our trellises are made of tough pine wood securely nailed together and painted ready for use. The trellis alone adds a touch of beauty to the home but when blossoming vines or climbing roses are allowed to train over it more beauty is secured.

No. 12 PERGOLA DELUXE—Uprights, 2x2; cross-pieces, 2x4; 7 ft. high, 6 ft. across top. Shipping weight, 100 lbs. Price, well painted, $12.00. 8 ft. across top, $12.90; 10 ft. across top, $13.80.

ADJUSTABLE TRELLISES
Made in 3 Sizes

No. 1—35 in. wide when folded; 30 in. wide if extended 8 ft.; 20 in. wide if extended 12 ft. Price, painted white, $1.35. Packed 6 in bundle. Weight, 35 lbs.

No. 2—47 in. wide when folded; 40 in. wide if extended 8 ft.; 30 in. wide if extended 14 ft. Price, painted white, $1.80. Packed 6 in bundle. Weight, 50 lbs.

SECTIONAL TRELLISES

This is an exceptionally fine trellis, well painted, and is made for those who want something better than the ordinary. Each section is 17½ in. wide, and 8 ft. tall, this being the proper height for any ordinary porch from floor to ceiling. It is evident that by this means you can build your trellis as narrow or as wide as you want it by the use of 1, 2, 3 or as many sections as you desire to use.

Another feature of this arrangement is that you can build along round or circular porches.

No. 4 TRELLIS—This is same trellis as described above. Various schemes may be carried out in arrangement of this trellis.

This is our No. 4 and sells at $1.80 per section.

A little money invested in vines and trellises will work wonders in the appearance of your premises.

SECTIONAL TRELLIS No. 14

As will be readily seen this trellis is very similar to our No. 4 trellis, only it is 35 inches wide instead of 17½, thus giving just double the amount of trellis in size for one-third additional cost. Uprights in this trellis are set in edge-wise, thus making it more rigid.

Price, per section, $2.70. All prices include white painting.

See page 19 of this catalogue for a complete list of beautiful climbing roses that can be used effectively with these trellises. Include a few varieties with your order and enjoy their flowers in a very short time.
GARDEN FURNITURE

Your back yard should be an outdoor living room. A place where you can get close to nature with the birds and flowers. And in order to create such an inviting place it is necessary that a certain amount of garden furniture be artistically placed about the garden or lawn.

You will here find a selection that will answer all requirements.

STONE SEAT—Make your outdoor living room as comfortable as possible with one of these sturdy stone seats. 5 ft. long, 1 ft. 9 in. high, 1 ft. 7 in. wide, $15.00 each.

URN—An excellent urn for the stone capped pillars on the front porch or on the entrance for ferns and flowers. 1 ft. 7 in. inside bowl, 1 ft. 7 in. high, $7.50 each.

URN—An excellent urn or vase for tubbing larger plants, evergreens, etc. $12.00 each.

BIRD BATH—This bird bath will invite the best of feathered friends into your garden and add much distinction to your formal rose garden. 3 ft. high, 2 ft. 4½ in. bowl. A very attractive piece of garden furniture for any lawn. You will want one of these. $20.00 each.

VASE—Another good piece for the entrance or porch pillar. Finest white concrete. These vases can be used very effectively as corner posts and drive entrances or placed about the lawn. Priced each. $12.00.
GREENHOUSE PLANTS

Under this heading we are listing, without detailed description, a number of the best plants for the annual beds. These are propagated in pots of various sizes 2 to 6 inches and are priced according to the size of the pot from which they are taken. All annual bedding plants and other stock sold from the greenhouse is sold with the understanding that there is no guarantee, replacement or refund on such stock.

We take especial care in packing and handling these plants and there is no question as to their being alive and healthy when they leave here.

BEDDING PLANTS

2-inch pot size........... $1.00 per doz.
3-inch pot size........... 1.50 per doz.

ASPARAGUS SPRENGERI—The best fern for porch boxes and outdoor vases; bright green foliage and red berries in autumn.

ASPARAGUS PLUMOSIS—Excellent for potting; very fine dark green foliage, excellent for training.

BOSTON FERN—The stateliest fern for indoor culture. The large cluster of bright green foliage makes this one of the finest pot plants.

AGERATUM—Dwarf border plant; blue flowers throughout summer.

CALENDULA—A showy annual; flowers glowing orange, all summer.

CANDYTUFT—Dwarf, free blooming; showy, excellent for beds and borders.

DUSTY MILLER — Silvery white leaves; an excellent plant for edging and borders.

COLEUS—A fine bedding plant with highly ornamental foliage.

LANTANA—Grows two feet high; red, pink, orange and yellow as desired.

LOBELIA—Useful for edgings and bedding; bright blue, continuous bloomer.

MARIGOLDS (Giant African)—Orange and lemon yellow.

PANSIES (Mastadon Miracle Mixed).

PETUNIAS—Ruffled Giants and single Rosy Morn. The Rosy Morn is the best Petunia for bedding.

SALVIA (Scarlet Sage)—A blaze of color during late summer and fall.

SNAPDRAGONS (Antirrhium)—One of the best annuals for cut flowers; white, pink, rose, scarlet, yellow and coral-rose.

VINCA (Periwinkle)—Free blooming bedding plants; white, white with crimson eye and rose colored.

VERBENA—A low growing bedding plant, very free bloomer; white, scarlet, pink and purple.

ZINNIA—Giant Double. One of the most brilliant, showy and satisfactory of the annuals. Flowers of enormous size; white, golden yellow, pink, orange and crimson.

GERANIUMS from cuttings; white, salmon pink and red.
